

## **Dragons and Heroes**

You walk into a cave. Everything is dark. You can hear your heart beat. You walk forward. The cave is full of gold. You want the gold. Suddenly you hear something... what is it? You stop. In the dark you see the **colours** orange and red and then... Fire! In the light you see a **terrifying** animal. You see the dragon!

Dragons have a very important place in legends from around the world. Not all dragons are the same.

The European dragon is a **cruel** creature with two big wings. On the end of the wings there are long fingers. It looks like a flying dinosaur and has hard skin covered with scales.

The Asian dragon is a kind creature and brings good luck. It looks like a snake and has hard skin covered with scales. It can change to very small or very big and it can fly into clouds and bring rain.

*Venjið serliga væl orðini, ið hava striku undir.*

*Colours, terrifying og cruel verða skrivað á talvuna.*
